-

# His journey

## EARLY LIFE

Fascination with building.  
Getting his own workshop

## AUTOMATAS

Studying human anatomy.  
Making three automata.

## AFTERWARDS

Inspector of the manufacturing of silk in France.

---

The background of the image is a yellow-tinted illustration of three famous automata by Jacques de Vaucanson. On the left, a cherub-like figure sits on a pedestal, playing a flute. In the center, a duck stands on a pedestal. On the right, a woman in 18th-century dress stands on a pedestal, holding a fan. Each pedestal has a small rectangular panel at its base showing a scene. The entire scene is set against a light blue background with a dark border.

JACQUES DE VAUCANSON'S

# Automata

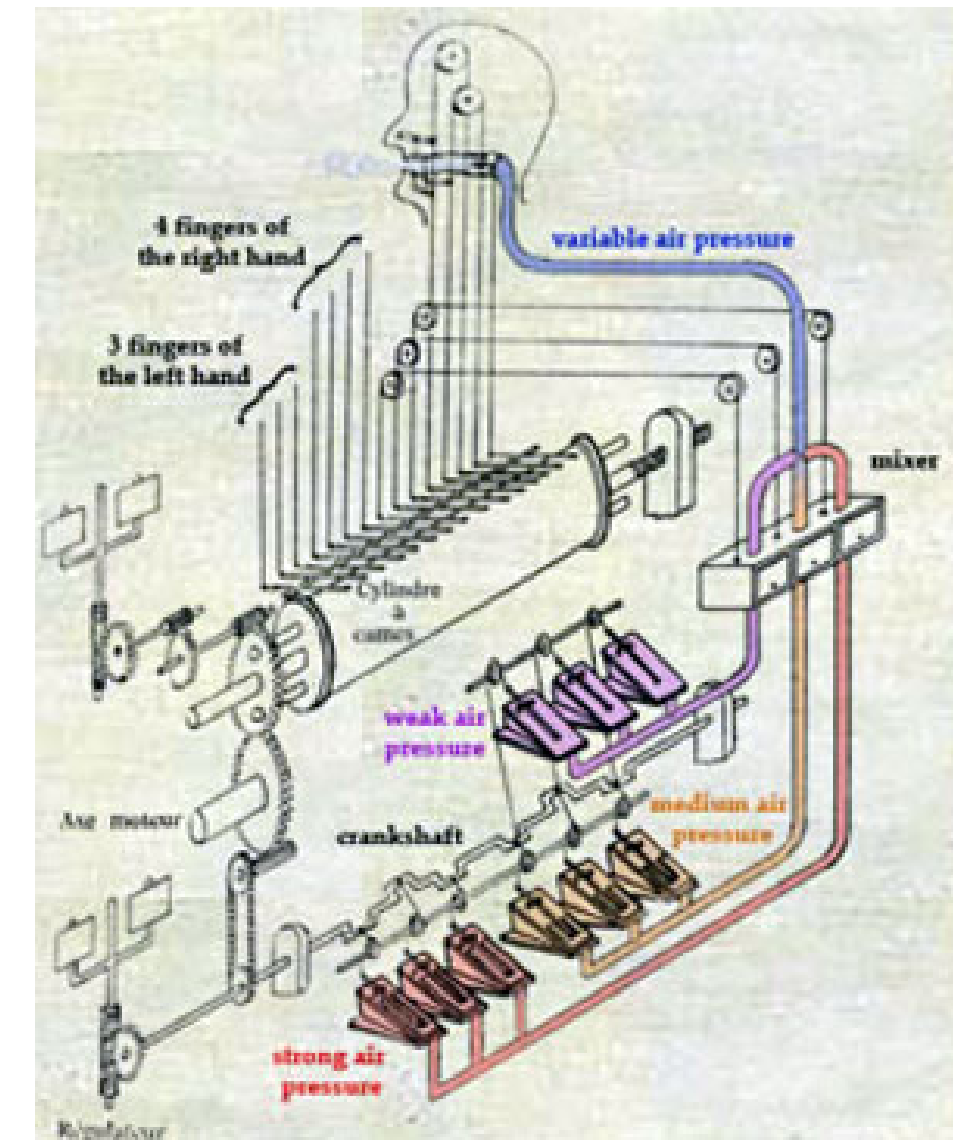

---

THREE OF HIS MOST FAMOUS WORKS

## Flute Player

- First Automaton
- 1738
- Very real

---
